Instruments by Native Instruments are top quality sample-based drumming software with a very vast collection of the most popular drum kits on the market. Studio Drummer is software drumming software for Mac OS X designed by the fine folks at Native Instruments, a company that specializes in the creation of powerful drumming software. Studio Drummer is part of Native Instruments' virtual drumming kit collection. Featuring three kits and over 3,500 individual drum-sounds Studio Drummer delivers an impressive and realistic drumming experience in your Mac. The studio experience is achieved by offering three different drum kits that can be used for either practice or session work. The "Percussion" kit offers a variety of both standard percussion as well as drum kits that are used in hip hop and rock music. The "Electric" kit offers a collection of drums, including a set of vintage electric drums, a modern kit as well as organs, a marimba, a piano and a solo drum set. The "Rock" kit provides you with a collection of drum kits that cover different kinds of rock music, such as blues, jazz, reggae, thrash metal, and other popular rock styles. There are 3 versions of Studio Drummer available: - 1.0 includes the 90-day trial version of the software. - 1.1 includes the full version of the software. - 1.2 includes the full version of the software and VST/AU instrument plugins for all included kits. October 01, 2006 - 19:54:15 Besides being a good plugin for any sequencer, it's a quite good standalone sequencer in itself. Actually, it's a fantastic sequencer. For me, the best way to describe what makes Studio Drummer such a great sequencer is to say that it takes the concept of a sequencer, and then turns it inside out. At the front end, there's a built-in sequencer. Most people have heard of this kind of sequencer already. It's the kind where you work on a track and sequentially select the various parts of the track to play. In this case, however, it's reversed. In Studio Drummer, when you select the part in the track, you are playing the track back. It's rather clever. At
