Zulabel is a complete label printing software program for small and large businesses. Whether you are printing labels for retail or wholesale, mail order or email order, Zulabel printing software is an affordable, easy to use solution to every label printing need. With Zulabel you can: ⬜ Choose between using bar codes, text, or graphics ⬜ Add, delete, and format labels from a database ⬜ Print directly from a database or from local or removable disk

drives. What's more, Zulabel includes many avery standard formats such as: ⏃ Chemical & Health Codes ⏃ UPC-E / UPC-H ⏃ ISBN #'s ⏃ CBU / Customs / V.A.T / Freight labels ⏃ Color coding / Rosette ⏃ Thermally printed bar codes ⏃ Full monochrome and 4 color text ⏃ Each label saved as one compressed image file A full label design window allows you to easily see the type of labels you can print. Zulabel can save up to 25 different labels to any image. This means you can choose to have 25 different labels from a single image file. You can

choose your labels as: ⯀ Stickers ⯀ Vinyl ⯀ Poster ⯀ Paper ⯀ Screen Printed ⯀ Thermally printed ⯀ Color coded ⯀ Weight and size can be adjusted ⯀ Text can be changed ⯀ You can print single or double sided ⯀ Database importing ⯀ Zulabel will check the data and take care of the formatting, spelling and even correcting common typos, so you don't need to worry about typing "Banks" as "BArNks" or anything like that. When the label you wish to print is ready, you simply click on a button and Zulabel prints it for you. If you

have your printers settings setup properly you can immediately view it on your screen and check your print to see if it is OK. If you want to send the label back, simply click save and then send for easy access and control. You also have the option of saving the label as a picture, which can be used in many different ways. You could include it as a wallpaper on your home computer, print it on your business cards,

What's New In?
